The Alternate News

Issue 8
November 2008

"We don't stuff around..."

We're on the Web!
www.alternatetextiles.com.au

Check out our updated website...I know we have been talking about it long

Price List... Updates...! know we are as surprised as you!!
Due to the fact the Aussie dollar is having trouble keeping up with the yanks, and the Kevin Rudd has guaranteed all the money in the reserve bank to prop up our banks should the shite hit the fan, we have to ask you for more for what we sell you, but not everything is going up...ask for our October price list.

We are closing for Christmas...

From 12.00pm Friday December 19th until Monday January 12th 2009, we will be closed. However as we are great guys and want to really look after our customers, you can ring us on 0408 188 453 (Rob), or 0424 928 047 (Matt), and we might be persuaded to come and open the shop to help you out, might cost a little more for the privilege...say beer for example.

Show yourself off with us:

As part of our updated website, we are offering advertising space within our site.
We offer the following: four (4) photos (from you), complete business details, link to your website (if you have one), all for \$50 plus GST.
This is a ONE OFF fee.
These will be displayed within the Gallery section of our website, with your business name displayed below the photos so the surfer knows who did what...we also offer, as an ongoing kindness, FREE upgrades of the photos and business details (if you move).
Go to alternatetextiles.com.au and check it out. Ring Rob with any queries you may have, remember any and all upgrades are FREE...

HEY WE NOW OWN ARCO®...

We have just taken possession of the awesome cleaning brand Arco, you may have heard of it, or even used it. We intend to take it back to the older logo, and continue making it in the tubs...but first we have to get rid of the two pallets of stock we have sitting here...so please give us a hand and order up now!
Did you know this stuff cleans stainless steel better than Autosol...try it today...

New products...

- We have just released three (3) new thread colours, LIME, PURPLE & ORANGE. These are completely "UV" stable and come from the Dabond stable of threads, very durable, very cool. Ask to see them when our truck next visits you...
- Do you have issues with marking pencils (Chinas), rolling off the bench, or off the side of the boat you are working on...try our new WHITE marking pencils, not only does it stay harder longer, and not only does it wash off with water, it is hexagonal in shape, and WILL NOT ROLL away from you when you need it...order a pack today...they are cheaper than chinas....

Alternate Funnies: If at first you don't succeed, destroy all evidence that you tried.

Riveter with swivel head

Ever sworn at your wrist cos it won't turn far enough...here is your answer...

\$39.50/pair

PVC Flooring

1700mm wide

\$17.50/mtr
